

Noblesse Water Butt

Noblesse

Noblesse Water Butt

The Noblesse's unique modern design makes it the ideal water butt for use in urban spaces. It's compact design boasts a capacity of 270 Litres.

Available in three attractive colours and with a removable lid, the Noblesse is a very versatile water butt.

The high quality rota moulded design has three inset brass connection points for attaching a tap, and linking butts together.

Granite & Charcoal versions include a brass tap, while the sandstone variant includes a brass tap.
